Food as Medicine: Dietary Intervention in Disease Treatment

September 9, 2019

If thou to health and vigor wouldst attain, Shun weighty cares—all anger deem profane.
From heavy suppers and much wine abstain. To rise from table and to take the air.
Shun idle, noontday slumber, nor delay. The urgent calls of Nature to obey.
These rules if thou wilt follow to the end, Thy life to greater length thou mayest extend.

Schola Medica Salernitana
